

## Inter Office Cancellation Policy for Nuclear Stress Testing

You have been scheduled for a Nuclear Stress Test at Cardiology Associates of Sussex County. This test requires the use of special medications which are ordered and prepared in advance especially for you. It is the policy of Cardiology Associates of Sussex County that if you should cancel your Nuclear Stress Test appointment any later than 12 noon on the Friday immediately preceding your scheduled testing date, you will be billed directly for the cost of these medications.

You may also be billed for these medications in the event that you do not follow the instructions for the preparation of the test (foods/drinks to avoid, fasting from midnight, holding medications), and the test needs to be changed or cancelled.

I have read the above Cancellation Policy for Nuclear Stress Testing and agree to abide by these terms.
